

Assoc. Prof. Dr. Cristina Chiavari

Cristina Chiavari is an Associate Professor at the University of Bologna's Department of Cultural Heritage, specializing in Chemistry for the Environment and Cultural Heritage. Her research focuses on the interaction between cultural heritage materials and environmental factors, emphasizing the degradation and conservation of metals. She employs advanced analytical techniques in her work. Professor Chiavari has led and participated in various national and European research projects, such as the M-ERANET B-IMPACT initiative on bronze conservation or JPI CH PROCRAFT (PROtection and Conservation of Heritage AirCRAFT). She teaches courses on environmental chemistry, restoration, and diagnostics for cultural heritage materials and has contributed extensively to scholarly publications in her field.”
