

Prof. Dr. Igor A. Pašti is a Full Professor at the University of Belgrade – Faculty of Physical Chemistry and a corresponding member of the Serbian Academy of Sciences and Arts. His research focuses on materials science for energy applications, with special emphasis on electrocatalysis, carbon-based materials, and computational materials design. Prof. Pašti has published over 200 scientific papers and three university textbooks, and his work has been cited more than 5,000 times (according to Google Scholar). He has led or co-led several national and international research projects, including nationally funded projects, HORIZON, NATO SPS, and DAAD collaborations. He is a recipient of several awards for scientific excellence and innovation, including the Best Patent Award from the Belgrade Chamber of Commerce. In addition to his scientific contributions, he is actively engaged in science promotion and serves as an editorial board member in several international journals and regularly serves as a reviewer for high-impact journals and funding agencies across Europe.
